
MINUTES OF THE TRANSPORT WORKING GROUP TUESDAY 10TH MAY 2022, 7PM (ONLINE)

1. **Welcome to the meeting**

In attendance – Cllr Debbie Harwood, Cllr Claire Rigby, Clerk, Assistant Clerk
Cllr Harwood opened meeting at 7.11pm

2. **Update on developing a local sustainable transport plan for Brockworth and increasing provision for walking, cycling and public transport in our area.**

Clerk and Assistant Clerk had a meeting with Jon Harris. He went through the planning response for Perrybrook and said he is working on the transport side of the response. Laurence is tidying up all the data now and he is hoping he will be able to present a draft in the June meeting. We also have some speed monitoring sheets for Moorfield Road and Ermin Street and the Clerk has sent the results to Jon Harris today. Jon has contacted Highways England about getting money off the back of the missing link works as we will be on the diversion route. He also talked to Stagecoach about bus services, about getting the route we would like through Perrybrook. It needs to be updated and fit for purpose now.

3. **Parking Issues**

Cllr Carter has taken more pictures of illegally parked cars so they can be added into the evidence. As photos come in, office staff will send them through to Jon Harris. Members will try to get more photos particularly around Green Bank and Kennel Lane.

4. **School Road Safety**

We are still waiting for the primary school to do their road safety audit. Jon was in contact with them, and they said were going to be doing it at half term. Castle Hill's governors meeting is next week so the plan is to try get Castle Hill on board at the same time. The group also discussed the fantastic news about dropped curbs going in along Mill Lane for the new school.

5. **Other road safety measures**

Cllr Carter has had email correspondence with TBC and developers regarding construction traffic which seems to have quietened down at the moment. The developers seem to have come to a compromise on the best route that they can take (still not ideal but the best they could do)

There is a construction management plan for Perrybrook but it does not include lorry delivery routes. There was also lots of talk about cycling routes, scooting, walking, and encouraging people to get to places other ways other than cars and being more active etc.

6. **Any other business or updates**

Nothing to report.

Cllr Harwood requested agendas should be put on notice boards to encourage new members.

Meeting was closed at 19.37pm

If you are interested in undertaking practical work to support this project, please let us know which of the following you would be interested doing:

- Traffic counts
- Access audit (walking & cycling routes)
- Evaluating public rights of way
- Observations on parking issues (school parking)
- Construction traffic behaviour and movement
- Survey promotion
- Speed surveys
