
NOTES OF THE TRANSPORT WORKING GROUP TUESDAY 12TH JULY 2022 7PM (ONLINE)

1. Welcome to the meeting

In attendance – Cllr Harwood, Apprentice, J Harris

2. Update on developing a local sustainable transport plan for Brockworth and increasing provision for walking, cycling and public transport in our area.

GCRP will have a stall at the community open day on the 30th of July. The packs that GCRP have designed for us, are close to being ready for printing. J Harris put the idea forward, that instead of launching the packs at the event that instead we have display boards with the extracts of information from the packs on display. This way, residents and groups can point out any information that isn't up to date before the pack is launched. J Harris will be attending the Planning & Highways committee on the 20th of July at 7pm to discuss the sustainable transport plan. There was a discussion about editing the illustrations in the packs when the time comes for editing to take place. J Harris has had a discussion with the community development coordinator about how the illustrations will be edited. On the manual packs there will be QR codes for each type of category e.g., sports, travel, leisure that will make people aware that the most up to date pack is available online. J Harris suggests that we enable the GCRP designer to update the pack every 3 months with any changes to contact numbers etc. This can then be featured on the parish council website. J Harris suggests that we annotate a manual copy of the pack with any changes and then scan it into the designer. J Harris recommends setting aside £500 a year to cover the costs of the editing. J Harris needs feedback on the draft transport plan from the councillors. J Harris requests that any feedback we get from the 30th of July event regarding accessibility & transport in older people is fed back to him.

3. Parking Issues

Cllr Harwood will send the apprentice photos of illegally parked cars

4. School road safety

Nothing to report

5. Other road safety measures

Nothing to report

6. Any other business or updates

Unfortunately, due to the lack of members able to attend this meeting, the discussion in the meeting was cut rather short and only agenda item 2 was covered in detail.
