
NOTES OF THE TRANSPORT WORKING GROUP TUESDAY 8TH MARCH 2022 7PM (ONLINE)

1. Welcome to the meeting

In attendance: Cllr Wolton, Cllr Harwood, Cllr Carter, J Harris, J Eccles, Apprentice

2. Update on developing a local sustainable transport plan for Brockworth and increasing provision for walking, cycling and public transport in our area.

J Harris is meeting Anthony (Community development coordinator) on Monday 14th @ 3pm. This is so him & Anthony can start social asset mapping, along with planning & prep work for the community engagement day. Volunteers are still being sourced, so the 150 homes in Perrybrook can be engaged with (given the new parish newsletter, asked transport questions, personal invite given to community engagement day). The Apprentice will print out maps of the Perrybrook estate so the volunteers can mark off the houses they have been to.

3. Discuss plans for Community engagement day

As mentioned above, J Harris will be meeting Anthony (community development coordinator) on Monday 14th March to discuss the prep work for the day. Apprentice to go away and ask Clerk for list of groups that will be attending event. The group discussed the types of groups that would be beneficial to have at the event.

4. Parking issues

A few problematic areas were raised including Westfield Road. This will continually be monitored.

5. School Road Safety

No issues were raised.

6. Community speed watch & speed watch survey's

Data is still needed from speed gun watches. The group identified the times that needed to be covered (8-9AM). J Harris shared his screen showing the group the locations that he suggests should be speed surveyed. The group decided that they would communicate on the WhatsApp group regarding which roads have been surveyed & at what time. Apprentice to put the map that J Harris shared with the group (locations for speed watch), on the WhatsApp group. J Harris to discuss with Cllr Carter about creating a transport survey that can be presented to Cllr Carter's workplace (Royal Mail) so that data can be gathered on the travelling habits of the employees.

7. Other road safety measures

No issues were raised

8. Any other business or updates

None were raised

If you are interested in undertaking practical work to support this project, please let us know which of the following you would be interested doing:

- Traffic counts
- Access audit (walking & cycling routes)
- Evaluating public rights of way
- Observations on parking issues (school parking)
- Construction traffic behaviour and movement
- Survey promotion
- Speed surveys
