
NOTES OF THE TRANSPORT WORKING GROUP TUESDAY 9TH NOVEMBER 2021, 7PM (ONLINE)

1. Welcome to the meeting

Cllr Harwood stood in as Chair

2. Approve last meetings notes

The notes were discussed and approved

3. Update on developing a local sustainable transport plan for Brockworth and increasing provision for walking, cycling and public transport in our area.

Group did not discuss this item due to J Harris not being present.

4. Parking issues

A Resident from Ermin Street said the road off Green Street (opposite vets) has parking issues. Cars are parked on both sides of the road, resulting in emergency services not being able to access the road. The pedestrian path is now narrow because of the cars double parking. There is overhanging brambles that cannot be avoided because of the cars being in the way.

5. School Road Safety

Cllr Carter, J Harris & Clerk attended a meeting with Brockworth Primary school. The headmaster went over the issues the school was facing regarding vehicles parking in places they should not. There was a discussion on road safety week & the children taking part.

7. Other road safety measures

The group discussed the drop kerbs in Brockworth & that there have been some issues that have arisen with the depth of the kerbs and the lack of drop kerbs. As part of the sustainable transport plan, J Harris has counted the number of drop kerbs & where they are located. The works that are going on where the Moorfield roundabout is located, are causing trouble to pedestrians. The Barriers are obstructing the pavement, resulting in people using buggies & mobility scooters having no option but to use the road.

8. Any other business or updates

- Apprentice has created more road safety posters for next week & will push for volunteers to take part in speed surveys etc. on socials.
